

Dear Parents and Carers,

As a result of the success of Crook Primary School's Science Fair, we are inviting children to produce an object that would be suitable within our Design and Technology curriculum.

We would like your child's project, which will be entered into our Design and Technology competition, to display the following:

- A moving object made from recyclable materials.
- A write up of your method, to include diagrams that have supported your design and of course we would love to see lots of photographs of you creating your model.

We will be judging the projects on their creativity (how does your entry look? Does it move? Are the materials recycled? Are there any pictures? Is it eye-catching and exciting?)

Please can all entries be brought into school on the morning of Thursday 27th April where we will be showcasing all of the projects to be judged.

There will be a prize for the winner in EYFS, K.S.1 and K.S.2;  
a £20 ARGOS voucher, to spend on something that moves!

We eagerly await your entries!

Miss C Bryson
