

Dear Parents / Carers,

As you all know, next Thursday (16th March) is our Science Fair.

Please can you send your child into school on the morning of Thursday 16th, with the every-day science projects they have created at home, so they can be displayed in the main hall. During the morning, all children will have the opportunity to come and look at all of the hard work that has been carried out.

At 2pm parents of KS1 children are invited to come into school where you can collect your child from the classroom, KS2 parents at 2:30. After you have collected your child, please make your way back to the main hall.

Once you have looked at the projects the children have created, you can continue on to the gym, where there will be a display of some of the science work each year group has been doing over the week.

Following on from this, you can make your way into the dining hall where a 10 minute fitness circuit will be set up and led by our Sports Leaders for you to complete with your child so wear your trainers! Please be patient as there might be a queue here as we are limited to numbers for health and safety purposes.

Finally, following the fitness circuit, you can receive a fruit salad, made by some of our Little Chefs, for you to eat on your journey home.

Over the day, the Year 3 – 6 More Able and Talented children will be around to explain and show you what they have been doing in their year group and to help you enjoy your afternoon.

Looking forward to seeing all of the every-day science projects on Thursday!

Miss Hammerton
