

School time education

At Crook Primary
School

(By Mattie Buddle yr 6 student)

Teachers here

The teachers here are amazing. You get a laugh with them during lessons and they are good fun. You may get disciplined sometimes, but they are only trying to help you in presenting good behaviours. There are a lot of teachers here but I can guarantee they are all friendly and helpful.

They can answer just about any questions that you have even if it's about the school, the work your doing and other children at the school but only when it's the appropriate time to ask them. You can find out more about the school and the teachers at the [crook primary school website](#).

I hope you enjoy reading about our school and the things we do.

English

At first I thought English was lame but now it is my favourite subject. English is also intertwined with our topic so we have a massive lot of things to put in our work. I personally think that this school either is or should be one of the top 5 schools in the UK.

We get a laugh with the teachers during lessons. We get taught what vocabulary to put in what context and now we can do it without thinking about it. We have an I.T.C suite that we do research in for our main subject. All of the class write non-chronological reports and stories such as fiction and non—fiction. We also do drama with Mrs. Gentles to help with our work.

Drama with Mrs. Gentles

Drama is my second favourite subject and especially with Mrs. Gentles. Mrs. Gentles is one of the kindest teachers and hardly ever raises her voice. She also does Shakespeare lessons.

We play cool games with her for example: sharks, freeze frames, follow the hand and so on. We get put in to groups of 5 and 6 then we get ten minutes to improvise and find out who's who. Then it gets to the point where you have to perform it in front of the class. As soon as you finish you get compliments on what was good and what you could improve on for next time. Mrs. Gentles gets our attention by using something called a thunder box.

Topic

Our teachers always make topic fun. We watch video's on what we need to write about in our books. There are mountain loads to write about in our books since topic in words is history.

At this moment in time we are learning about: World War 2, soldiers, evacuees and the army. The war went on for ages. We are currently reading the goodnight Mr. Tom novel which was a good one to pick because we watched the full movie and we get loads to write about.

Now NO SPOILER ALERTS😊

Handwriting

Handwriting is very important and it needs to be presented in your book perfectly. Remember your teacher needs to be able to read your writing so it needs to be neat and tidy. You are able to have intervention and have a target to reach.

Handwriting should be considered as a skill that comes naturally to you and if it doesn't then ask for a target from your teacher. You might get a dojo for presentation of work. This subject probably is the most important of all lessons. If your handwriting is not the best then have a big try because you will get a big shock in your SATS In year 6.

Golden time

On a Friday afternoon it is golden time. You get to choose an activity to take part in. If you are in key stage 1 you need at least 5 dojos to get your golden time and if you are in key stage 2 you need at least 10 to get it.

There is a good choice of activities to take part in for example drumming, guitar, hot threads, science, chess with Mr. Clark (a brilliant teaching assistant) and lots more to pick from. Before you have your golden time it is star assembly.

Thank you for reading
